

Biochemistry Visiting Speaker Seminar Lecture Series

Dr. Raymond Thomas
Professor
Western Research Chair
Department of Biology
Western University

" Lipidomics: a valuable tool in the validation of nootropic foods for the prevention and treatment of neurodegenerative diseases"

Friday, March 7, 2025

10:30 AM

MSB – 384 & [Zoom link](#)

All Welcome

Dr. Raymond Thomas, a Professor and Western Research Chair at Western University, focuses on lipid metabolism and food systems, particularly in northern and boreal climates. His research integrates lipidomics methods with innovative food system approaches to address human health, plant stress biology, and sustainable agriculture. Dr. Thomas has pioneered work in neurolipidomics, resilient food systems, and nootropic food innovation, and has specialized certifications in Project Management, Cellular Imaging of Lipids, and Advanced Bioinformatics training.

ACCESSIBILITY

Please contact ntimoth@uwo.ca if you require information in a different format or if other arrangements can make this event accessible to you. Campus Accessibility Map at www.accessibility.uwo.ca/maps.htm
